

Supporting your child's basic facts

Helping your child to learn their basic facts at home is a great way to support their learning in mathematics. We've looked at websites and apps that are appropriate for your child's maths and development level. Most of these apps and sites are free, but you may wish to purchase paid sites and apps.

Year Level if working at expected curriculum level for BF	Basic Facts Stage	Websites/ apps to support this level of basic facts understanding
All		Your child has an account on e-ako maths adventures . This website supports all levels of basic facts understanding in the Number Facts section. Your child's teacher has marked appropriate facts for your child to be learning with a small flag.
